## About This Game

Copoka is an open-world exploratory indie game about a bird building its nest in a totalitarian city state. As a player, you are soaring free, high above the city of Copoka, as a contrast to the citizens below. Your goal is to find and collect twigs for your nest, and as you construct your home piece by piece a story of intrigue and politics beneath around you.

## Key Features

- **Take wing** and enjoy the freedom of flight
- **Experience a city** boiling with strife and political turmoil
- **Eavesdrop on conversations** to get the full story of the city

## Story

---

The city of Copoka is in distress. Speakers all around the city proclaim the glory of the Great Leader and how she will bring salvation to a country in need, while people lament in the streets about starvation and dissatisfaction. Something is brewing in the back alleys of the slums. Whispers in the wind tell about a coming uprising, about an end to the suffering and new hope for the citizens of Copoka. Being a bird you can undertake the role of silent observer. By listening to people around the city a more nuanced picture of the brewing conflict is revealed - a conflict concerning clashing ideologies regardless of social standing or allegiance.

Of course, it's up to you if you wish to stop and listen. After all, what are human concerns to a bird anyway?

front door and pause to catch your breath. Even though you ran all the way up the drive from the car, you are soaked through; your feet are particularly wet. Judging by the number of puddles you stepped into in the dark, the drive needs a small fortune spending on repairs. But under the porch, you are out of the storm, and you brush the rain from your clothes before turning towards the door.

No. Just no.... i was surprised to see a re-release of this, but its still as bad as before.  
really clunky animations, poorly designed controls, bad performance and just boring gameplay.

dont bother buying this.. Good Graphics & heaps of fun for only \$5!!!(on special) released Oct2011. This game is my all times favourite, it is worth it ,but you have to be patient before you get the big guns!Not like most poeple that just say "ah this ship sucks , it cant shoot , I dont have money" etc, its a RPG RTS game , one of a kind , had potential in ashes of victory , it died.I hope the haters are happy now.Anyway the game is awesome since recently I saw that there was a guide , which to be honest I didnt know alot of thing that were in it. :D. The Story goes On is a beautiful game based in a maze. There are so many different gameplay possibilities. I could play this game for hours. Definitely worth the \$4!. Extremely buggy, multiplayer is barely working, the puzzles aren't very difficult IMO, and the game hasn't been updated in about a year. It's a cool concept, but it's a very short barebones game with no support or updates happening. Just skip right over this, unless you happen upon it for free somehow.

The Coma has a solid place in the 2D horror genre with beautiful art work, great writing and amazing scenes of spooks. An hour in and the only problem I had with this game so far is that I'm stupid... I had a hard time pronouncing the names but admittedly I don't know Korean but with that being said everything translates well to English.

I'm a big fan of horror games despite most of them being mediocre or just plain poopie (I'm looking at you Evil Within) so I'm a bit desensitized when it comes to spooks (nothing really scares me). But surprisingly there was a moment where the game spooked me to the point of me choking on my own saliva. It got so bad I had to stop playing and take a break; I tip my hat to you game. Mind you I was playing at 2am with all the lights out so yeah it was spooky.

For \$9 it's a must buy.

[hard to follow and shut down within the first 10 mins and wont boot back up not worth a cent.](#)

[games like this should refund your money. Games is dead cause of Gamespy. So anyone responsible multiplayer issues. I would kiss him or her.. Gameplay is very good, there is one very active server, and if you want to play with other players who have black ops just friend them and also if you want to friend me too. best to play when on sale](#)
